Greetings valued Dan's Movie Report and Action-Flix.com readers. Director Russ and EP Paul are still hard at work with The Assassin's Apprentice 2 filming, August 18<sup>th</sup> was a full action day with some cool motorcycle stunt work. Executive Producer Paul Hickman reports that there are still some pick up shots in Cyprus and a few additional shots to complete. He also states that the process of working on the CGI will commence shortly following principal photography and the entire project is expected to be completed sometime in the Fall of 2020. With film festival screenings following by the end of the year in 2020, the film is sure to be a hit with genre fans and film festival goers alike.
